The Integrated Family Medicine - Neuromusculoskeletal Medicine Residency Program is housed in an off-campus ambulatory clinic building. The residency has a fully integrated curriculum/rotation and lecture program. There are two track options within the combined residency – obstetrics and sports medicine. Metro Health Hospital is associated with the Statewide Campus System formerly (COGMET) and Michigan State University College of Osteopathic Medicine. This consortium provides ten monthly didactic meeting sessions in Lansing. Affiliated hospitals in Grand Rapids provide rotation flexibility and diversity for the Family Medicine rotations required by the residency and Michigan State University’s Department of OMM provides support for the OMM rotations required by the residency along with didactic support.

General Program

Case-based learning/longitudinal patient care in the clinic setting. Both Family Medicine clinic and OMM clinic responsibilities are part of this program. Both clinics are in operation at the Breton Health Center.

Procedural skills-monthly procedure workshops

- SCS monthly meetings at MSU
- Special OMM CME opportunities, AAO convocation required annually
- Required subspecialty rotations/elective rotations
- Family Medicine Inpatient Service
- Master lecture Series
- Simulation Cardiac Series
- Senior Procedures Workshop
- ACOFP In-service Examination, AAO In-service Exam
- Lecture/workshops in Preventive Medicine, Behavioral Medicine, Cultural Diversity, Managed Care, Practice Skills, Medical Ethics, Research, Values and Attitudes, Reading and Journal Review, Case and Chart Review and Board Readiness.
