

# 1. In IE or Chrome, launch <https://view.metrogr.org>

The screenshot shows the VMware Horizon landing page. On the left is the Metro Health logo. On the right is the HealthCare's most wired WINNER 2017 logo. The main content area has a green VMware Horizon logo at the top, followed by text explaining that users can connect to their desktop and applications using the VMware Horizon Client or through the browser. Below this, there are two main options: 'Install VMware Horizon Client' (with a download icon) and 'VMware Horizon HTML Access' (with a calendar icon). A small note says 'Check here to skip this screen and always use HTML Access.' Below the main content, there are three annotations with arrows pointing to specific elements: 'Used to download the latest VMware View software to access your Metroview software.' points to the 'Install VMware Horizon Client' button; 'Used to access your MetroView desktop session from any web browser for quick access or vendor access.' points to the 'VMware Horizon HTML Access' button; and 'To see the full list of VMware Horizon Clients, click here. For help with VMware Horizon, click here.' points to a link at the bottom of the page.

# 2. Choose the correct download corresponding to your computer's operating system.

Home / VMware Horizon Clients

## Download VMware Horizon Clients

Select Version:  VMware Horizon Clients for Windows, Mac, iOS, Linux, and Android allow you to connect to your VMware Horizon virtual desktop from your device of choice giving you on-the-go access from any location.
